

Wound Healing Foundation

is working for you!

Give Wound Healing Patients A Voice!

The WHF is excited and proud to partner with Inspire, the leading social network for health, to offer a safe place for patients and caregivers to connect and support one another on issues related to wound care, traumatic wounds, chronic wounds, amputation, scars, symptoms and much more.

The [Wound Healing Foundation Support Community](#) offers peer-to-peer support in a safe and moderated environment so patients can connect with people who are or have gone through similar issues.

Members can read, ask questions or respond to discussions on the community, upload photos and even search for specific topics or participate in other communities. Regardless of how many communities you join, you only need the one account.

Membership is easy and needs only three things; user name, birthday and e-mail. Go to <http://www.woundhealingfoundation.org/inspire.aspx> and click the red "Join the Wound Healing Online Support Community" button.

JOIN OUR FREE SUPPORT COMMUNITY

The WHF is proud to partner with Inspire, the leading social network for health. [Learn More](#)

Encourage wound healing patients and their families to join for free the Wound Healing Foundation Support Community for support and education.
